Diabetes Research and Clinical Practice 26 (1994) 241–244

DIABETES RESEARCH AND CLINICAL PRACTICE

Subject index

Volume 26 (1994)

Acarbose; Non-insulin dependent diabetes mellitus; Blood glucose; Serum insulin; Diet; Nutrient intake **26**, 215

Acute renal failure (ARF); Rhabdomyolysis (RM); Creatine kinase (CK); Blood urine nitrogen (BUN); Hyperosmolar hyperglycemia non-ketotic coma (HHNK); Diabetic ketoacidosis (DKA) **26**, 209

Adipocytes; Insulin; Phorbol ester; Protein kinase C isoforms; Translocation **26**, 91

Age of onset of diabetes; Diabetes mellitus; Twins; Type 2 (non-insulin-dependent) diabetes mellitus; Obesity; Body mass index (BMI); Maximal body mass index in the past **26**, 137

Antihypertensive agents; Non-insulin-dependent diabetes mellitus; Beta-blockers; Nicardipine; Glucose metabolism **26**, 67

Autoantibodies; Bovine serum albumin; Fluid-phase radioimmunoassay; Islet cell antibodies; Glutamate decarboxylase **26**, 35

Autonomic function; Pupillometry; Valsalva manoeuvre; Deep breathing test **26**, 61

Autonomic neuropathy; Hypertension; Microalbuminuria **26**, 43

Beta-blockers; Non-insulin-dependent diabetes mellitus; Antihypertensive agents; Nicardipine; Glucose metabolism **26**, 67

Blood glucose; Non-insulin dependent diabetes mellitus; Serum insulin; Diet; Nutrient intake; Acarbose **26**, 215

Blood pressure; Insulin; 2-Deoxyglucose; Glucose; Intracerebroventricular injections; Heart rate **26**, 81

Blood pressure; Sodium-lithium countertransport; Insulin-dependent diabetes mellitus; Plasma catecholamines; Diabetic nephropathy **26**, 15

Blood urine nitrogen (BUN); Rhabdomyolysis (RM); Creatine kinase (CK); Acute renal failure (ARF); Hyperosmolar hyperglycemia non-ketotic coma (HHNK); Diabetic ketoacidosis (DKA) **26**, 209

Body mass index (BMI); Diabetes mellitus; Twins; Type 2 (non-insulin-dependent) diabetes mellitus; Obesity; Maximal body mass index in the past; Age of onset of diabetes **26**, 137

Bovine serum albumin; Autoantibodies; Fluid-phase radioimmunoassay; Islet cell antibodies; Glutamate decarboxylase **26**, 35

β-Cell function; Hyperglycaemic clamp; Oral glucose tolerance test; Continuous infusion of glucose with model assessment; Insulin sensitivity; Impaired glucose tolerance **26**, 189

C-peptide; ICA; ICSA; Healthy children **26**, 155

Cold pressor test; Diabetic autonomic neuropathy; Sympathetic nervous system **26**, 21

Collagen gene expression; Diabetes mellitus; Diabetic cardiomyopathy; Spontaneously diabetic BBW rats **26**, 163

Community-based; Epidemiology; NIDDM; Risk factor **26**, 229

Continuous infusion of glucose with model assessment; Hyperglycaemic clamp; Oral glucose tolerance test; β-cell function; Insulin sensitivity; Impaired glucose tolerance **26**, 189

Coronary heart disease; Serum insulin; Insulin resistance; Risk factors **26**, 51

Creatine kinase (CK); Rhabdomyolysis (RM); Blood urine nitrogen (BUN); Acute renal failure (ARF); Hyperosmolar hyperglycemia non-ketotic coma (HHNK); Diabetic ketoacidosis (DKA) **26**, 209

Deep breathing test; Pupillometry; Autonomic function; Valsalva manoeuvre **26**, 61

2-Deoxyglucose; Insulin; Glucose; Intracerebroventricular injections; Blood pressure; Heart rate **26**, 81

Diabetes mellitus; Diabetic cardiomyopathy; Collagen gene expression; Spontaneously diabetic BBW rats **26**, 163

Diabetes mellitus; Twins; Type 2 (non-insulin-dependent) diabetes mellitus; Obesity; Body mass index (BMI); Maximal body mass index in the past; Age of onset of diabetes **26**, 137

Diabetic autonomic neuropathy; Cold pressor test; Sympathetic nervous system **26**, 21

Diabetic cardiomyopathy; Diabetes mellitus; Collagen gene expression; Spontaneously diabetic BBW rats **26**, 163

Diabetic complications; Microalbuminuria; Saudi Arabia; Type 2 diabetes; Renal disease **26**, 115

Diabetic ketoacidosis (DKA); Rhabdomyolysis (RM); Creatine kinase (CK); Blood urine nitrogen (BUN); Acute renal failure (ARF); Hyperosmolar hyperglycemia non-ketotic coma (HHNK) **26**, 209

Diabetic nephropathy; Sodium-lithium countertransport; Insulin-dependent diabetes mellitus; Blood pressure; Plasma catecholamines **26**, 15

Diabetic neuropathy; Goshajinkigan; Herbal medicine; Vibratory threshold; SMV-5 vibrometer **26**, 121

Diabetic neuropathy; Non-insulin-dependent diabetes; Distal polyneuropathy; Risk factors; Hyperglycemia; Multivariate analysis **26**, 109

Diabetic polyneuropathy; Neuropathic sensory complaints; Neuropathic pain; Sensory alteration **26**, 29

Diet; Non-insulin dependent diabetes mellitus; Blood glucose; Serum insulin; Nutrient intake; Acarbose **26**, 215

Distal polyneuropathy; Non-insulin-dependent diabetes; Diabetic neuropathy; Risk factors; Hyperglycemia; Multivariate analysis **26**, 109

Epidemiology; NIDDM; Community-based; Risk factor **26**, 229

Fasting plasma glucose (FPG); Insulin secretion; Glucose toxicity; NIDDM; 75-g OGTT **26**, 129

Fluid-phase radioimmunoassay; Autoantibodies; Bovine serum albumin; Islet cell antibodies; Glutamate decarboxylase **26**, 35

75-g OGTT; Insulin secretion; Fasting plasma glucose (FPG); Glucose toxicity; NIDDM **26**, 129

General practice audit; NIDDM; Recommended diabetes care; Vocational registration **26**, 197

Glucose; Insulin; 2-Deoxyglucose; Intracerebroventricular injections; Blood pressure; Heart rate **26**, 81

Glucose metabolism; Non-insulin-dependent diabetes mellitus; Antihypertensive agents; Beta-blockers; Nicardipine **26**, 67

Glucose toxicity; Insulin secretion; Fasting plasma glucose (FPG); NIDDM; 75-g OGTT **26**, 129

Glutamate decarboxylase; Autoantibodies; Bovine serum albumin; Fluid-phase radioimmunoassay; Islet cell antibodies **26**, 35

Goshajinkigan; Herbal medicine; Diabetic neuropathy; Vibratory threshold; SMV-5 vibrometer **26**, 121

Healthy children; ICA; ICSA; C-peptide **26**, 155

Heart rate; Insulin; 2-Deoxyglucose; Glucose; Intracerebroventricular inections; Blood pressure **26**, 81

Herbal medicine; Goshajinkigan; Diabetic neuropathy; Vibratory threshold; SMV-5 vibrometer **26**, 121

Hyperglycaemic clamp; Oral glucose tolerance test; Continuous infusion of glucose with model assessment; β-cell function; Insulin sensitivity; Impaired glucose tolerance **26**, 189

Hyperglycemia; Non-insulin-dependent diabetes; Diabetic neuropathy; Distal polyneuropathy; Risk factors; Multivariate analysis **26**, 109

Hyperosmolar hyperglycemia non-ketotic coma (HHNK); Rhabdomyolysis (RM); Creatine kinase (CK); Blood urine nitrogen (BUN); Acute renal failure (ARF); Diabetic ketoacidosis (DKA) **26**, 209

Hypertension; Autonomic neuropathy; Microalbuminuria **26**, 43

ICA; ICSA; C-peptide; Healthy children **26**, 155

ICSA; ICA; C-peptide; Healthy children **26**, 155

Impaired glucose tolerance; Hyperglycaemic clamp; Oral glucose tolerance test; Continuous infusion of glucose with model assessment; β-cell function; Insulin sensitivity **26**, 189

Incidence; Type 1 diabetes; Libya **26**, 223

Insulin; 2-Deoxyglucose; Glucose; Intracerebroventricular injections; Blood pressure; Heart rate **26**, 81

Insulin; Insulinoma; Proinsulin; Monoclonal antibody; Polyclonal antibody **26**, 149

Insulin; Phorbol ester; Protein kinase C isoforms; Translocation; Adipocytes **26**, 91

Insulin receptor (IR); Werner's syndrome; Insulin resistance; Single-stranded conformational polymorphism (SSCP); Sequencing **26**, 171

Insulin resistance; Serum insulin; Risk factors; Coronary heart disease **26**, 51

Insulin resistance; Werner's syndrome; Insulin receptor (IR); Single-stranded conformational polymorphism (SSCP); Sequencing **26**, 171

Insulin secretion; Fasting plasma glucose (FPG); Glucose toxicity; NIDDM; 75-g OGTT **26**, 129

Insulin secretion; Transforming growth factor-beta; Insulin-secreting cell line; Intracellular calcium **26**, 7

Insulin sensitivity; Hyperglycaemic clamp; Oral glucose tolerance test; Continuous infusion of glucose with model assessment; β-cell function; Impaired glucose tolerance **26**, 189

Insulin sensitivity; Mathematical modelling; Repeatability **26**, 145

Insulin-dependent diabetes mellitus; Sodium-lithium countertransport; Blood pressure; Plasma catecholamines; Diabetic nephropathy **26**, 15

Insulin-secreting cell line; Transforming growth factor-beta; Insulin secretion; Intracellular calcium **26**, 7

Insulinoma; Insulin; Proinsulin; Monoclonal antibody; Polyclonal antibody **26**, 149

Intracellular calcium; Transforming growth factor-beta; Insulin secretion; Insulin-secreting cell line **26**, 7

Intracerebroventricular injections; Insulin; 2-Deoxyglucose; Glucose; Blood pressure; Heart rate **26**, 81

Islet amyloid; Islet amyloid polypeptide/amylin; Precursor; Type 2 (non-insulin-dependent) diabetes mellitus; Type A insulin resistance **26**, 101

Islet amyloid polypeptide/amylin; Islet amyloid; Precursor; Type 2 (non-insulin-dependent) diabetes mellitus; Type A insulin resistance **26**, 101

Islet cell antibodies; Autoantibodies; Bovine serum albumin; Fluid-phase radioimmunoassay; Glutamate decarboxylase **26**, 35

Libya; Type 1 diabetes; Incidence **26**, 223

Low-molecular-weight tubular proteinuria; Lysozymuria; Well-controlled diabetics; Poorly controlled diabetics **26**, 1

Lysozymuria; Well-controlled diabetics; Poorly controlled diabetics; Low-molecular-weight tubular proteinuria **26**, 1

Mathematical modelling; Insulin sensitivity; Repeatability **26**, 145

Maximal body mass index in the past; Diabetes mellitus; Twins; Type 2 (non-insulin-dependent) diabetes mellitus; Obesity; Body mass index (BMI); Age of onset of diabetes **26**, 137

Metabolic/hormonal responses; Mixed meal test; Type 2 diabetes mellitus **26**, 177

Microalbuminuria; Autonomic neuropathy; Hypertension **26**, 43

Microalbuminuria; Saudi Arabia; Type 2 diabetes; Renal disease; Diabetic complications **26**, 115

Mixed meal test; Metabolic/hormonal responses; Type 2 diabetes mellitus **26**, 177

Monoclonal antibody; Insulinoma; Insulin; Proinsulin; Polyclonal antibody **26**, 149

Multivariate analysis; Non-insulin-dependent diabetes; Diabetic neuropathy; Distal polyneuropathy; Risk factors; Hyperglycemia **26**, 109

Neuropathic pain; Diabetic polyneuropathy; Neuropathic sensory complaints; Sensory alteration **26**, 29

Neuropathic sensory complaints; Diabetic polyneuropathy; Neuropathic pain; Sensory alteration **26**, 29

Nicardipine; Non-insulin-dependent diabetes mellitus; Antihypertensive agents; Beta-blockers; Glucose metabolism **26**, 67

NIDDM; Epidemiology; Community-based; Risk factor **26**, 229

NIDDM; General practice audit; Recommended diabetes care; Vocational registration **26**, 197

NIDDM; Insulin secretion; Fasting plasma glucose (FPG); Glucose toxicity; 75-g OGTT **26**, 129

Non-insulin dependent diabetes mellitus; Blood glucose; Serum insulin; Diet; Nutrient intake; Acarbose **26**, 215

Non-insulin-dependent diabetes; Diabetic neuropathy; Distal polyneuropathy; Risk factors; Hyperglycemia; Multivariate analysis **26**, 109

Non-insulin-dependent diabetes mellitus; Antihypertensive agents; Beta-blockers; Nicardipine; Glucose metabolism **26**, 67

Nutrient intake; Non-insulin dependent diabetes mellitus; Blood glucose; Serum insulin; Diet; Acarbose **26**, 215

Obesity; Diabetes mellitus; Twins; Type 2 (non-insulin-dependent) diabetes mellitus; Body mass index (BMI); Maximal body mass index in the past; Age of onset of diabetes **26**, 137

Oral glucose tolerance test; Hyperglycaemic clamp; Continuous infusion of glucose with model assessment; β-cell function; Insulin sensitivity; Impaired glucose tolerance **26**, 189

Phorbol ester; Insulin; Protein kinase C isoforms; Translocation; Adipocytes **26**, 91

Plasma catecholamines; Sodium-lithium countertransport; Insulin-dependent diabetes mellitus; Blood pressure; Diabetic nephropathy **26**, 15

Polyclonal antibody; Insulinoma; Insulin; Proinsulin; Monoclonal antibody **26**, 149

Poorly controlled diabetics; Lysozymuria; Well-controlled diabetics; Low-molecular-weight tubular proteinuria **26**, 1

Precursor; Islet amyloid; Islet amyloid polypeptide/amylin; Type 2 (non-insulin-dependent) diabetes mellitus; Type A insulin resistance **26**, 101

Proinsulin; Insulinoma; Insulin; Monoclonal antibody; Polyclonal antibody **26**, 149

Protein kinase C isoforms; Insulin; Phorbol ester; Translocation; Adipocytes **26**, 91

Pupillometry; Autonomic function; Valsalva manoeuvre; Deep breathing test **26**, 61

Recommended diabetes care; NIDDM; General practice audit; Vocational registration **26**, 197

Renal disease; Microalbuminuria; Saudi Arabia; Type 2 diabetes; Diabetic complications **26**, 115

Repeatability; Insulin sensitivity; Mathematical modelling **26**, 145

Rhabdomyolysis (RM); Creatine kinase (CK); Blood urine nitrogen (BUN); Acute renal failure (ARF); Hyperosmolar hyperglycemia non-ketotic coma (HHNK); Diabetic ketoacidosis (DKA) **26**, 209

Risk factor; Epidemiology; NIDDM; Community-based **26**, 229

Risk factors; Non-insulin-dependent diabetes; Diabetic neuropathy; Distal polyneuropathy; Hyperglycemia; Multivariate analysis **26**, 109

Risk factors; Serum insulin; Insulin resistance; Coronary heart disease **26**, 51

Saudi Arabia; Microalbuminuria; Type 2 diabetes; Renal disease; Diabetic complications **26**, 115

Sensory alteration; Diabetic polyneuropathy; Neuropathic sensory complaints; Neuropathic pain **26**, 29

Sequencing; Werner's syndrome; Insulin resistance; Insulin receptor (IR); Single-stranded conformational polymorphism (SSCP) **26**, 171

Serum insulin; Insulin resistance; Risk factors; Coronary heart disease **26**, 51

Serum insulin; Non-insulin dependent diabetes mellitus; Blood glucose; Diet; Nutrient intake; Acarbose **26**, 215

Single-stranded conformational polymorphism (SSCP); Werner's syndrome; Insulin resistance; Insulin receptor (IR); Sequencing **26**, 171

SMV-5 vibrometer; Goshajinkigan; Herbal medicine; Diabetic neuropathy; Vibratory threshold **26**, 121

Sodium-lithium countertransport; Insulin-dependent diabetes mellitus; Blood pressure; Plasma catecholamines; Diabetic nephropathy **26**, 15

Spontaneously diabetic BBW rats; Diabetes mellitus; Diabetic cardiomyopathy; Collagen gene expression **26**, 163

Sympathetic nervous system; Cold pressor test; Diabetic autonomic neuropathy **26**, 21

Transforming growth factor-beta; Insulin secretion; Insulin-secreting cell line; Intracellular calcium **26**, 7

Translocation; Insulin; Phorbol ester; Protein kinase C isoforms; Adipocytes **26**, 91

Twins; Diabetes mellitus; Type 2 (non-insulin-dependent) diabetes mellitus; Obesity; Body mass index (BMI); Maximal body mass index in the past; Age of onset of diabetes **26**, 137

Type 1 diabetes; Incidence; Libya **26**, 223

Type 2 (non-insulin-dependent) diabetes mellitus; Diabetes mellitus; Twins; Obesity; Body mass index (BMI); Maximal body mass index in the past; Age of onset of diabetes **26**, 137

Type 2 (non-insulin-dependent) diabetes mellitus; Islet amyloid; Islet amyloid polypeptide/amylin; Precursor; Type A insulin resistance **26**, 101

Type 2 diabetes; Microalbuminuria; Saudi Arabia; Renal disease; Diabetic complications **26**, 115

Type 2 diabetes mellitus; Mixed meal test; Metabolic/hormonal responses **26**, 177

Type A insulin resistance; Islet amyloid; Islet amyloid polypeptide/amylin; Precursor; Type 2 (non-insulin-dependent) diabetes mellitus **26**, 101

Valsalva manoeuvre; Pupillometry; Autonomic function; Deep breathing test **26**, 61

Vibratory threshold; Goshajinkigan; Herbal medicine; Diabetic neuropathy; SMV-5 vibrometer **26**, 121

Vocational registration; NIDDM; General practice audit; Recommended diabetes care **26**, 197

Well-controlled diabetics; Lysozymuria; Poorly controlled diabetics; Low-molecular-weight tubular proteinuria **26**, 1

Werner's syndrome; Insulin resistance; Insulin receptor (IR); Single-stranded conformational polymorphism (SSCP); Sequencing **26**, 171
